

COAST

COAST

The Coast collection offers a wide range of possibilities, limited only by your personal creativity and preferences. Configure it based on your specific needs: straight-lined or curvilinear, banquettes, contrasting bolsters... Add a shelf or an acoustic dividing panel to create privacy islands in shared spaces or to set up a cozy break area for staff members. Resolutely contemporary, Coast was designed with casual collaboration in mind to provide comfortable seating with rounded lines, giving it a gentler more welcoming appearance. Add some warmth to this piece with wood legs, a modern flare with the metal legs. Coast can be personalised to fit your space!
