SOLO

As a modern-day descendant of the cozy club chair, our Solo collection's strong silhouette and bold curves promise comfort, even from across the room. This gracious yet ultra contemporary chair is residential in tone, and applies well to lounge settings, group huddles, and private office spaces. Place two or three Solo chairs together and you've got yourself an intimate grouping. With angled arms that are designed to fit under table surfaces, these chairs also function amazingly well in conference rooms and café settings.
