

SPYDER

ST50C7PZ - ST70PP

SPYDER

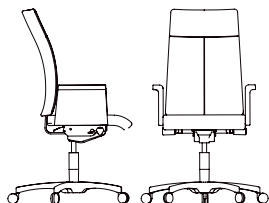

With its angular shape and upholstered armrests, the Spyder collection is perky yet elegant in character due to its fresh and trendy midcentury look. Comfortable and ergonomic, our Spyder line is versatile enough to function in a conference room, as an executive chair with a high back, or a guest chair with a lower back. These chairs can even be adjusted to a bar-height for work done around taller collaboration tables. Channel or T-shaped stitching are both available for the back. With Rouillard's flexibility, our Spyder collection comes in optional wood or metal bases. For chic-looking comfort and maximum adaptability, the Spyder collection is exactly what you need!
