## VALI

The VALI collection offers small tables with unique, rounded shapes, perfectly suited to lounge spaces. The trapezoidal version, with a height of 26", is ideal for informal work, while the round table, with its 22" height, is ideal as a side table for placing a coffee or a telephone. Equipped with a flat disc base that slides easily under sofas and lounge chair, these tables combine functionality and elegance. Available in our three metal colours – white, black and sand –, they blend harmoniously into any contemporary setting, adding a touch of subtle modernity. VALI, a new classic that brilliantly combines functionality and style.
